

ENVIRONMENTAL AND OCCUPATIONAL HEALTH & SAFETY POLICY

SunExpress places the greatest importance in protecting the environment, health and welfare of its employees, customers, vendors, partners and others who may be affected by our activities.

We will:

- Provide a workplace in which employee exposures to potential harmful conditions are identified, assessed, controlled and communicated to employees.
- Seek to optimize company efficiency and profitability through minimization of wastes, noise, emissions and discharges, water and energy consumption.
- Operate in compliance with relevant national regulations, aviation specific regulations like JAR's and ICAO rules, company and customer requirements applicable to our operations and also exceeding them.
- Continually improve our Management System and environmental, occupational health & safety (OHS) performance by:
 - Periodically reviewing the environmental impacts and OHS hazards and risks of our operation;
 - Set clearly defined objectives and targets with the aim to reduce environmental impacts and OHS hazards and risks;
 - Periodically measuring progress relative to established objectives and targets;
 - Monitor, audit and review our environmental and OHS performance;
 - Management's periodic review of the effectiveness of SunExpress' policies and Management system in achieving set goals.
- Ensure awareness by means of training regarding environmental issues and promote safety consciousness among our employees, partners and vendors, who we will seek to influence to adopt similar policies in order to prevent accidents and injuries or environmental impacts within our airline operation.
- Promote joint consultation and communication regarding our Management System and environmental and OHS performance honestly with our employees, customers, vendors and any other interested parties.
- Support the Cross Functional Team (CFT) to ensure active participation and involvement of our employees.

This policy will be communicated to all parties interested in the performance of our environmental and OHS management system.
